

# VDL500/VDL600 takes the feed to where it is needed!

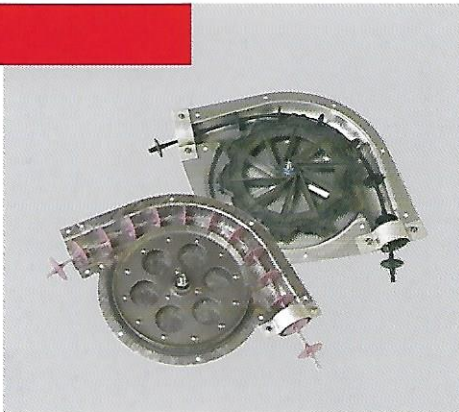

## Dispensers

## Dispensers

- Available in 3 different models with capacities ranging between 3, 6 and 9 liter.
- Applicable with centrally controlled opening system
- Opening and closing by manual or automatic system
- Made of high quality plastic and stainless steel components
- Highly accurate dosing

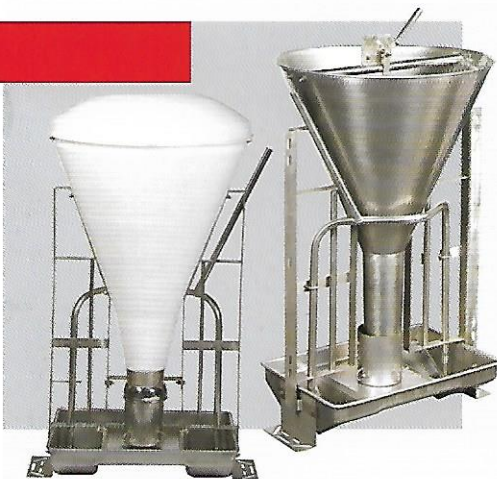

## Corners

## Corners

- Available in various models to suit the specific configuration of the feeding system
- PVC, Stainless steel or galvanised corner casings
- Cornerwheel gives optimal support to conveyor cable/chain and discs
- The open structure of the cornerwheel and the position of the spokes assure a proper cleaning of the corner.
- The large radius of the corner contributes to long lifetime of the cable/chain.

## Feeders

## Feeders

- Completely made of stainless steel, or a combination of stainless steel and p.v.c. hopper
- Type BF for maximum 50 fatteners from 15 Kg till endweight
- Type BW, for maximum 50 piglets from 6-30 Kg
- Completely deepdrawn stainless steel trough for piglets/fatteners

## Y-piece

- Each circuit has its own colour slide (red or blue)
- Suitable for both the VDL500 and VDL600 system
- Manual operation with simple controller for 2 circuits
- Double lifetime in comparison with other systems as it is used less intensively
